

EXPERT WITNESS SERVICES

White Waghorn's Expert Witness services are headed by our Managing Director, John White. John has been registered as an Expert Witness for over 20 years in the UK Register of Expert Witnesses. He has High Court witness box experience and has worked as an expert in Mediation and in producing Joint Expert Reports.

A summary of John's career is presented below. He is happy to discuss a case in an introductory telephone call with no obligation. A quotation and full CV can then be provided.

If specialist technical knowledge is required for a particular case, this can usually be found through White Waghorn's extensive network of associates.

John S White MA ACMA

John White has spent over 40 years in the computer industry working on system implementation, project management and consultancy assignments. He has in-depth commercial and general management experience, and has acted as an independent expert witness in numerous disputes. In this last capacity, he has given evidence in the High Court and has worked as an expert in Mediation and in producing Joint Expert Reports.

He is 50% Shareholder and Managing Director of White Waghorn Limited (W2) an independent consultancy whose clients include BP, MoD, NATO, the European Commission, ntl, the BBC, Lloyds Bank, the Post Office and many other household names.

Throughout his career, he has been closely involved in establishing system requirements, designing cost-effective solutions to them, and managing the development and implementation of those solutions. He has experience of a very wide variety of hardware and software platforms, and of system solutions ranging from high performance real-time systems to large scale data management and commercial applications.

Career Summary

John has been Managing Director of White Waghorn since 1980. Prior to that he worked at Scicon (1969 to 1980) on system implementation, consultancy and management assignments. His previous position (1968 to 1969) was as a Trainee systems engineer in ICL Local Government Region.
